2018 – 2020 Calicut, India	**Higher Studies** *Emjay Vocational Higher Secondary School*	

Professional Experience

Frontend Development
Freelance

I have developed a professional, fully responsive travel-based front-end website for self-study purposes. Utilizing HTML, CSS, JavaScript, Bootstrap, and jQuery, this single-page website ensures seamless user experience across all devices. The design emphasizes a modern and intuitive interface, making navigation easy and engaging for users. Key features include dynamic content, interactive elements, and a cohesive visual theme. This project highlights my proficiency in front-end development and my ability to create functional, aesthetically pleasing web solutions.

Projects

EtheReal ⧉

I completed a Single-page static website for a Mobile Fuel company, delivering it to the client punctually and within agreed timelines. This project exemplifies my commitment to professionalism, attention to detail, and adherence to deadlines in meeting client expectations
